EXPERIENCE

Pujakaro

Business Analyst Intern

May 2025 – July 2025

- Joined an early-stage startup to analyze operational inefficiencies and improve data-driven reporting across business functions.
- Tasked with building a scalable reporting system to track customer engagement and operational metrics from **5,000+** records.
- Cleaned and transformed raw datasets using **SQL**, **Excel**, and **Python**; built **Power BI** dashboards across business metrics.
- Reduced manual reporting by **36%** and delivered **EDA** insights enabling faster data-driven decision-making across teams.

EDUCATION

•Indian Institute of Technology Guwahati

B.Tech in Chemical Science and Technology

2022 – 2026

PROJECTS

•Cloud-Kitchen-Market-Intelligence (Case study)

June 2026

Personal Project

[GitHub Link](#)

- Investigated a **35-restaurant** Swiggy market across **10 cuisines** (College Road, Nashik) to identify market gaps and expansion opportunities for a cloud kitchen startup.
- Designed end-to-end analytics pipeline addressing cuisine dominance, pricing, delivery efficiency and customer preferences.
- Cleaned and normalized **3** relational datasets in **MySQL**, performed Exploratory Data Analysis (EDA) using **Python**, **SQL** and developed an interactive **Power BI dashboard** with **8** analytical modules.
- Delivered actionable business recommendations that enabled a data-driven market-entry strategy through competitive positioning, pricing optimization, and customer segmentation.

•Vendor Sales Analysis

June 2025

Group Project

[GitHub Link](#)

- Developed optimized **SQL queries** on **50K+ records** for data consolidation by merging sales, inventory, and vendor tables using joins, aggregations, and **ETL** pipelines for efficient and scalable data processing workflows.
- Performed data cleaning and **exploratory data analysis (EDA)** to identify underperforming brands, pricing inefficiencies, and low inventory turnover, enabling **data-driven** recommendations to improve profitability.
- Reduced query processing time by **27%** through SQL optimization using efficient joins and common table expressions CTEs.
- Built **Power BI dashboards** with KPIs tracking to visualize sales trends and vendor performance metrics for business insights.

•Credit Card Fraud Detection System

Aug 2025

Group Project

[GitHub Link](#)

- Built a fraud detection pipeline using Logistic Regression, Decision Tree, and Random Forest models on credit card transaction data, achieving **91.3% accuracy** through feature engineering and cross-validation.
- Performed **data preprocessing** and **EDA**, applying **SMOTE oversampling** and undersampling techniques to handle severe class imbalance and improve model generalization.
- Deployed the model using **Streamlit** with a real-time prediction interface, reducing false positives by **6%** through precision-recall optimization.

TECHNICAL SKILLS

Programming Languages: Python(Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), SQL (MySQL), R (Basics).

Data Analytics: Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Business Intelligence, Data Wrangling, A/B Testing Concepts .

Visualization Tools: Power BI, Microsoft Excel (Pivot Tables, VLOOKUP, Charts), Tableau*.

Machine Learning: Linear Regression, Logistic Regression, K-Means Clustering, Decision Trees (Scikit-learn)

Tools: Jupyter Notebook, Google Colab, Git, GitHub, Streamlit

**Elementary proficiency*

CERTIFICATIONS & COURSEWORK

–**Certifications:** Google Data Analytics Professional Certificate (Coursera) – Hands-on experience in data cleaning, exploratory data analysis, SQL querying, and dashboard creation using real-world datasets.

–**Coursework:** Data Analysis, Machine Learning, Product Matters (E-Cell), Gen AI fundamentals.

POSITIONS OF RESPONSIBILITY

–**Event Member**,Rights and Responsibility Club, Welfare Board, IIT Guwahati

2024–25

* Coordinated distribution of food and essential supplies to **500+** elderly residents, supporting welfare initiatives.

–**Events Core Team Member**,Spirit Annual Sports Fest, IIT Guwahati

2024–25

* Managed and executed **35+** volleyball matches, ensuring efficient scheduling and smooth event operations.
